Supported Medical Devices

ADNEX2

- ADNEX2 electronic Instructions for Use (eIFU)

IETA

- IETA electronic Instructions for Use (eIFU)

EPC

- EPC electronic Instructions for Use (eIFU)

New Features / Enhancements

Clearer access guidance: When access to a model is blocked because of membership eligibility, an expired certificate or country restrictions, the platform now explains the reason and the next steps, with self-service actions where available. Matching FAQ content has been added to help users resolve access questions.

Improvements / Bug fixes

Medical device updates: The included medical devices have been updated to their latest patch versions (ADNEX2 v1.1.3, IETA v1.0.1, EPC v1.0.2), together with the corresponding CE and UKCA labelling, including the updated manufacturer address.

ADNEX input form: Resolved an issue that could prevent users from completing the ADNEX input form.

Known issues

No known issue identified

Security Updates

No security updates in this release.
